Yard of the Week

This week the Yard of the Week is located at 238 South “P” Street. The yard and surrounding landscaping is beautiful and well maintained. The yard has a small pond and waterfall feature near the entrance of the home. This creates a relaxing area off the front porch and is attractive from the street.

South 6th Street Railroad Crossing

At the end of day today the Railroad Crossing repair at South 6th Street will be completed and 6th Street will be reopened for use. The Public Works and Development Department would like to thank the citizens that use South 6th Street for supporting the repair project by using the detours that made the crossing repair possible. Another Thank you goes to the employees of CORP Railroad, National Construction, and the City for all the hard work repairing and improving the crossing.

Fire Hydrant Flow Test

On Thursday September 6th at 7:00 am the Utility Crew will be performing a flow test on the fire hydrant at the corner of 6th and Whiteaker potentially impacting businesses downtown. The flow test will last approximately 15 minutes. Due to the volume of water flowing through the hydrant it may cause the sediment in the pipe to cause the water to become cloudy. If you experience cloudy water please run your sink faucet until the water cleans up. This shouldn't take more than a couple minutes. If the water is not clearing up please contact the Public Works and Development Department at 541-942-3349.

ROW RIVER NATURE PARK BOAT RAMP IMPROVEMENT SURVEY!

Since June 1st the City has been asking residents what they would like to see happen with the rustic boat ramp at Row River Nature Park. We are just about done collecting surveys before moving into the next phase of the public involvement process. If you, your family, co-workers, or friends haven't had the opportunity to take our quick survey now is the time. The survey period will end on Friday, September 7th @ 5:00 PM. Thank you, stay safe, and have a wonderful Labor Day!
