Annual Bald Eagle Count

Hosted by Coast Fork Willamette Watershed Council

Saturday, January 18, 2020 9 AM – 4 PM

Join the Coast Fork Birders for the annual Bald Eagle Count led by Alison Center! All levels of bird enthusiasts are welcome to join. Meet at the Koffee Kup restaurant by 9am to check-in for the Dorena Reservoir count. Arrive earlier if you would like to have breakfast beforehand. Participants will depart the Koffee Kup shortly after 9am so as to be birding in the field by 9:30am. The Cottage Grove Reservoir count will take place in the afternoon. Meet at 2pm at the US Army Corps of Engineers (USACE) Lakeside Park on London Rd. to check-in. Bring birding gear, weather-appropriate clothing and your own snacks and water. Please leave dogs at home.

Please note - Eagle sightings are not guaranteed.

This count will contribute citizen science data on immature and adult bald eagles (and other birds that winter in the area) around Dorena Reservoir and Cottage Grove Reservoir to the Oregon Eagle Foundation's statewide midwinter eagle count. This will be the 27th annual count led by Alison Center.

Improved water quality Fish and aquatic habitat Terrestrial wildlife habitat Livestock forage Aesthetic values Real estate and economic value Recreational potential Reduction of downstream flood damage

.

What to do when a storm is imminent or occurring:

- Be smart. Know your alerts and warnings.
- Stay Informed. Monitor the weather reports provided by your local news media. Consider buying a NOAA Weather Radio (NWR) All Hazards receiver, which receives broadcast alerts directly from NWS.
- Plan for how you will stay informed if there is a power outage
- You can use USGS's Water Alert system to receive text or email messages when a stream in your area is rising to flood

Did You Know?

have to pay them back. FEMA

offers disaster grants that don't

need to be paid back, but this

what is needed to recover. A claim

you could qualify for from FEMA

FACT: Floods are the nation's most **FACT:** Most federal disaster common and costly natural disaster and cause millions of dollars in damage every year. Floods cost America, on average, \$8.2 billion each year (according to 2015 data). Recovering from just one inch of water inside your building can cost about \$27,000.

FACT: Homeowners and renters insurance do not typically cover flood damage.

FACT: Floods can happen anywhere or the SBA--and you don't have to FloodSmart.gov. --More than 20 percent of flood claims come from properties outside the high risk flood zone.

FACT: Flood insurance can pay regardless of whether or not there is a Presidential Disaster declaration.

PROTECT

the life you've built.

GET FLOOD INSURANCE

assistance comes in the form of low-interest disaster loans from U.S. Small Business Administration (SBA) and you

Learn More

Call your insurance agent today to ask about the National Flood Insurance Program (NFIP). There against your flood insurance policy is no better way to protect the life vou've built. To learn more, call more funds for recovery than those the NFIP Help Center at 1-800-427-4661, or visit

FACT: You may be required to have flood insurance. Congress has mandated federally regulated or insured lenders to require flood insurance on mortgaged properties that are located in areas at high

risk of flooding. But even if your property is not in a high risk flood area, your mortgage lender may still require you to have flood insurance.

How to get Flood Insurance.

First, contact your insurance agent or company. The insurance agent who handles your homeowners or renters insurance policy could be the same agent who handles your flood insurance policy.

If your agent cannot assist you, contact your insurance company or the insurance agent who sold you the policy. If you have a policy with NFIP Direct, call: 1-800-638-6620. If you are not sure who your insurer is, call:1-800-427-4661. Help is available in most languages. Individuals who are deaf or hard-of-hearing can use the 711 relay system and ask to speak with some-

one in the NFIP Call Center.

If you want to know if your property is in the Special Flood Hazard Area (SFHA), check out our

www.cottagegrove.org/cd/page/flood-information.

You'll find a wealth of information about the City's Flood Insurance Rate Map, flood depths at your property, existing Evaluation Certificates, etc..

SPRING EDITION

WILLAMETTE WALLEY BIRDING TRAIL: BIG RIVER LOOP

Starting from Cottage Grove at the south end of the valley, this loop takes you south along the Coast Fork of the Willamette River, with a stop at a large reservoir, then east along one of its main tributaries before you climb to higher-elevation forests along the Calapooya Divide. You'll notice a change in the rocks and plants at roadside, as you've crossed into older geologic formations that belong to southwestern Oregon. Coming down the east side of the divide, you enter a rugged area with a history of gold-mining. As you explore further in this unique corner of the Willamette Valley, visit serene waterfalls before you complete the loop by way of Dorena Reservoir. In winter the central part of this loop is often impassable, but you can still find excellent birding in Row River Nature Park just east of Cottage Grove.

Oregon Birding Trails: Row River Nature Park

Row river Nature Park consists of a series of ponds and riparian woodland with willows and cottonwoods along the Row River, and some conifer stands. Watch for Great Blue and Green Herons, Wood Duck and other waterfowl around the ponds and river. Four species of woodpecker are resident, along with chickadees, kinglets, and Wrentit. In the spring look for warblers, Bullock's Oriole, Black-headed Grosbeak and Redwinged Blackbird. Osprey and Cedar Waxwing are commonly seen in summer. In winter this park can be good for sparrows, with occasional rarities. Black Phoebe has occurred in the park..
