- 911 Comm. Centers
- Hospitals and Urgent Care
- Schools
- Fire Stations
- Jails and Police Depts.
- Public Water Treatment/Storage
- Municipal Wastewater Facility
- Rivers and Streams (USGS)
- National Wetlands Inventory

NWI data are from the US Fish & Wildlife Service, and include both wetland areas and linear features. In Lane County, some quadrangles were digitized by US F&WS contractors, and some were digitized by LCOG. Letter codes denote specific types: P = palustrine, R = riverine, SS = scrub/shrub, EM = emergent. For full definition of type codes, go to www.nwi.fws.gov.

Maps produced for City of Cottage Grove, by Lane Council of Governments, under a grant from the Federal Emergency Management Agency.
